Reliable email @yourdomain.com.
Website design and hosting.

Whom we serve

We serve businesses all over the greater Toronto area.

Get just what you need

Don't pay for services that you don't need. Let us design a customized package just for you.

- Unmatched security: Know who accesses which documents when. Have your own server physically located at your own office.
- Corporate server: Secure file, print, email, fax, web, and time-sharing servers.
- Google optimization for your website: Help clients find YOU on the internet
- E-commerce applications: Checkout, online-stores.
- Online collaboration: Video conferencing, version tracking and document sharing.
- Internet-based telephony: Use a VoIP phone system and reduce your operating costs.
- Multi-platform support: Prefer mac? We can support both Windows and Macintosh.

The Service you want

We know how much you value your time. When your computer system has problems - your office grinds to a halt. That's why we offer quick, professional service to get you back up and running right away.

FREE On-site consultation

Contact us today and let us show you how we can increase your productivity, save you money, and make computing hassle-free.

Technology that works for YOU

MARKETING:

- Can people find you on google?
- Do you have a professional-looking site?

PRODUCTIVITY:

- Can you access all your files from home?
- Can you control who accesses what?

SECURITY:

- Are you protected from viruses and hackers?
- Do you have backups of your important files?

Technology that meets YOUR needs.
